Product Categories:

We are specializing in machining precision parts for automotive as well as motorcycle manufacturing industries. We do also provide machining on special designed parts for other industry such as electric motor driven pump, spare parts for spinning machines, fitting, jig and fixture etc.

Company History

Thamthanachot Engineering LP., was established since June 1991 as “Noi Karnchang” by Mr. Somjai Ruengdaechrungse to do machine shop services business. The business name was changed to be Thanachot on May 15, 1996 which was still personal own. On April 30, 2001 the founder decided to change his business name once again to “Thamthanachot LP.” according to tax incentive reason. The core business’ mission is to provide the best quality and reliability on precision machining works to customers who are mainly in automotive and other industries to meet their requirements and satisfaction.

Products Showcase

Our products are all OEM parts such as schakle pin, shaft , busching, washer, pin, worm wheel schaft, casting cap and press parts etc.

All of parts are made to order as required by our customers who are mainly in automotive manufacturers such as Thai Summit Group of companies and other OEM. The parts will be machined by using manually as well as CNC controlled machineries existing in our facility which has more than 4,000 Sq. M.

Move forward for continual improvement

We are improving our business processes to meet ISO International standards. With fully support by Thai Automotive Institute (TAI) management under Invigorating Thai Business (ITB) project. We are currently approaching to apply for ISO 9001:2000 certification.
